Printers Choice (CAL) Plastisol inks are specifically formulated for both manual and automatic printing. **Printers Choice** inks possess excellent printability and are recommended for printing on White and Light color garments of Cotton, Cotton Blends, Polyesters, as well as other synthetics. Underbase with a White is recommended when printing over dark garments.

** A bleed resistant white such as 11027 Lunar SO/LB White for Polyester Fabrics or 11003 Flash White for Dark Cotton and Cotton blends.*

PRINTING RECOMMENDATIONS:

For optimum coverage use Mesh count 86-125ct (34-49cm)

When printing on white or light fabrics use 110-280ct (49-90cm)
