VASTEX
SCREEN PRINTING EQUIPMENT

Training Classes

Complete, Professional Training Classes at Our Place or Yours!

3 Day Class at Vastex Factory:

Our intensive training program can help eliminate the months of traditional start up problems, allowing you to save thousands of dollars in supplies and time as well as to avoid the typical lengthy learning period. This hands on three day class (or five days at your location) is effective, down to the basics technical training, offering advanced information on the screen printing process.

This is not a course on "Vastex equipment" but a course dedicated to teaching the fundamentals of screen printing. Vastex hosts this class which is instructed by independent master screen printer, Douglas Grigar.

- Up Close and Personal
- Hands On Experience
- Prepress Through

50% off with Purchase
of any Premium Shop!

Course Includes Complete Training in:

- Screen coating
- Screen frame choices
- Mesh selection
- Exposure control and emulsion choices
- Registration and multicolor printing
- Identifying and solving problems
- Special inks and procedures
- Curing and flashing
- Screen cleaning and reclaiming

• 3 Day class for **\$500/student**

Classes at Your Place:

No equipment purchase is necessary, however, classes can be purchased with complete shops. Onsite classes are customized for your needs which can include:

- Installation of new equipment
- Staff training
- Advanced techniques
- Production efficiency improvement.

• **\$895/Day** +expenses, Domestic (3 day min)

• **\$1,000/Day** +expenses, International (5 day min)

Whatever your screen printing training needs are,
Vastex wants to help you reach your goals!
